

VINHOS DELUXE CONNOISSEUR PACK

This expansion can be used with both the 2010 **Reserve** and **Special Vintage 2016**. Except for Setup and the specifics, all rules remain unchanged.

Phylloxerae Vintage tile:

Warning: Use this tile at your own risk. This is only advisable for experienced players.

Shuffle the tile into the deck of Vintage tiles. If this tile comes out, there will be no production at all in that year.

Players may still send wine to the fair if they have any. During that year, Magnates accept wine of any color, value, or region. If you don't have any Wine, you cannot issue a press release, which could mean that you fail to attend the fair altogether!

Ocean tiles:

These tiles are used to cover the Wine Regions that are not in play. They offer a aesthetic solution to make your gameplay easier and the board prettier still.
