

# VINHOS DELUXE EXPERTS PACK (32 TILES)

This expansion can be used with both the **2010 Reserve** and **Special Vintage 2016**. These expert tiles are added to the ones in the base game. Except for Setup and the specifics of the new Wine Experts, all Wine Expert rules remain unchanged.

## Fun Variant:

For each wine feature, shuffle all of the Wine Expert tiles of that type, then create a deck from 7 of them. Return the rest to the box.

*With this variant you will find a more surprising game with a lot of different Experts and imbalanced decks. This will increase the game tension, fun, and variability.*

## Balanced Variant:

Select an arbitrary wine feature, and shuffle all of the Wine Expert tiles of that type, then create a deck from 7 of them.

After determining the 7 Experts to be in the game, make 3 more decks (one for each feature) with Experts matching the 7 from the first deck. Return the rest of the Wine Experts to the box.

Now shuffle each deck, and place them in their proper spaces on the gameboard.

*With this variant, the game will be played with only 7 different Experts and each deck has the same 7 Experts in it, delivering a more balanced game.*

## Controlled Variant:

Simply choose which 7 Wine Experts you want in the game, and select those 7 for each deck.

Now shuffle each deck, and place them in their proper spaces on the gameboard.

*Only use this variant after you have played the game a few times.*
