# Council of 4

GAME RULES

# COUNCIL OF 4

## INTRODUCTION

It is a time of wealth and prosperity for the three great Kingdoms of the Empire, and you – rich merchants seeking to expand your business interests – want some of that prosperity. Each Kingdom is governed by a ruling council of four nobles from the six powerful families of the Empire. Help certain family members get onto the various councils and you'll be able to persuade these wise councilors to sell you the permits you need to expand throughout the Empire. (And remember that the Queen is a powerful ally to have – curry her favor and you'll be able to build without permits!) The merchant who gathers the most permits, while building in the best locations, will be the most renowned merchant and win the game!

**1 QUEEN  
MINIATURE**

**24 COUNCILOR MINIATURES**  
4 each in 6 colours

**4 BIG MERCHANTS MINIATURES**  
1 each in 4 colours

**44 SMALL  
MERCHANTS MINIATURES**  
11 each in 4 colours

# COUNCIL OF 4 COMPONENT

## 30 SERVANT TOKENS

21 Single Servant tokens  
9 Triple Servant tokens

## 14 CITY TOKENS

## 8 MARKER TOKENS

2 each in 4 colours

## 1 MAIN BOARD

(A map divided into 3 regions: Coast, Hills, Mountains)

## 1 TRACK BOARD

## 4 PLAYER-AID CARDS

## 90 POLITICS CARDS

13 each in 6 colours, 12 Jokers

## 45 BUSINESS PERMIT TILES

(divided in 3 areas)

## 7 GENERAL REWARD TILES

## 5 QUEEN'S REWARD TILES

# COUNCIL OF 4

## SETUP

### 1. GAME BOARDS

- Place the **Main Board** and the **Track Board**, side by side, in the centre of the table. The map is double-sided – you may choose either side when starting to play.

*NOTE: Each region contains 5 cities with their names in alphabetical order: from A-E on the coast, from F-H in the hills, and from K-O in the mountains.*

### 2. CITY TOKENS

- Shuffle the 14 **City Tokens**. Place 1 token faceup on the corresponding space of each city. The grey city (Juvelar or Graden, according to the chosen size) does not receive a City Token.

### 3. BUSINESS PERMIT TILES

- Divide the **Business Permit Tiles** into 3 decks based on the region printed on their back (Coast, Hills, Mountains). Shuffle the 3 decks separately and place them facedown on their corresponding spaces on the Board. Draw two tiles per region and place them faceup at the designated spaces.

## COUNCIL OF 4

### 4. THE QUEEN

- Place the **Queen Miniature** in the grey city (Juvelar or Graden, according to the chosen size).

### 5. QUEEN'S REWARD TILES

- Place the **Queen's Reward Tiles** on the Track Board in a pile in numerical order (with the first tile on top and the fifth on the bottom) on the corresponding space close to the tracks.

### 6. BONUS TILES

- Place the 3 **Region Reward Tiles** on their corresponding spaces on the Regions on the Main Board (Coast, Hills, Mountains)
- Place the remaining 4 **General Reward Tiles** on their specific spaces on the center of the Track Board.

### 7. COUNCIL LINE

- Insert 4 **Councilors** at random in each Council Line (one for each region on the Main Board, and the Queen line on the Track Board). Place the 8 remaining Councilors to the side of the board.

### 8. POLITICS CARDS

- Shuffle the **Politics Cards** and place the deck facedown to the side of the board.

### 9. SERVANTS

- Place the **Servant Tokens** in a pile to the side of the board.

### 10. PLAYER SETUP

- Take the 1 Big Merchant Miniature of one colour and place them in front of you, to serve as your reference colour.
- Take the 10 Small Merchant Miniatures of your colour and place them in front of you.
- Take the 1 Small Merchant Miniatures of your colour and place it on the "0" space of the Scoring Track.
- Take the 2 Marker Tokens of your colour. Place a Marker Token on the "0" space of the Nobility Track.

Randomly determine the first player.

The first player places their final Marker Token on the "10" space of the Coins Track and receives 1 Servant Token; proceeding clockwise around the table, the second player places their Marker Token on the "11" space and receives 2 Servant Tokens; the third player places their Marker Token on the "12" space and receives 3 Servant Tokens, and the fourth player places their Marker Token on the "13" space and receives 4 Servant Tokens.

- Take an Overview Card.
- Draw 6 Politics Cards from the deck without showing the other players.

## PHASES OF PLAY

## PLAYING THE GAME

The game is played in turns, starting with the first player and proceeding clockwise. Your turn is composed of two phases, performed as follows:

**Phase 1:** Draw a Card

*"Coins are always useful, but often influence is a more valuable currency. Gather political favors as you carefully watch for the right moment to cash them in."*

Draw a Politics Card from the card deck and add it to your hand. If the deck finishes at any point during the game, reshuffle the discarded cards to form a new deck.

**Phase 2:** Perform Actions (Perform one Main Action and, if you wish, one Quick Action.)

*"Money and influence are worthless without action. Guide your servants, and spend your coins and influence wisely, as you expand your mercantile empire."*

You must perform a single Main Action and may, if you wish, perform a Quick Action. You choose the order to perform these actions.

## MAIN ACTIONS

The player must choose one of these four main actions:

**Action 1:** Elect a Councilor

**Action 2:** Acquire a Business Permit Tile

**Action 3:** Place a Merchant Using a Permit Tile

**Action 4:** Place a Merchant with the Help of the Queen

## MAIN ACTION 1: ELECT A COUNCILOR

*"Nobles often require support to get elected and are only too happy to reward canny merchants who help them ascend to power."*

Choose one of the available Councilors Miniatures to the side of the board. In the Council Line of your choice, insert the Councilor to the side closest to the printed arrow, pushing the Councilors present in that Line until the last one is out of the line. Remove the excluded Councilor and place them with the other Councilors to the side of the board. Receive 4 Coins. (Mark this by moving your marker on the Coin Track.)

# COUNCIL OF 4

## MAIN ACTION 2: ACQUIRE A BUSINESS PERMIT TILE

*"Expanding your mercantile empire can be quite expensive if you don't have enough political favors to cash in."*

Choose and satisfy the council of a region by discarding 1-4 Politics Cards corresponding to the Councilors present in that Balcony. The Joker (multi-coloured card) can be any colour.

Pay Coins, marking this by moving your marker on the Coin Track, depending on the number of Councilors satisfied.

## MAIN ACTION 3: PLACE A MERCHANT USING A PERMIT TILE

*"Set up shop and start reaping the benefits of your well-placed influence."*

Choose one of the faceup Business Permit Tiles in front of you. Place one of your small Merchant miniatures on the corresponding space in the city whose letter is indicated on the tile. If the tile indicates more than one city, you may choose which city to build in. Turn the used tile facedown to indicate that you can no longer use it to send another Merchant.

**NOTE:** For each multi-coloured card played, pay 1 additional coin.

	1 CARD PLAYED	10 COINS
	2 CARDS PLAYED	7 COINS
	3 CARDS PLAYED	4 COINS
	4 CARDS PLAYED	0 COINS

## COUNCIL OF 4

### MAIN ACTION 4: PLACE A MERCHANT WITH THE HELP OF THE QUEEN

*"The Queen is amenable to donations to the royal coffers and is willing to reward Her financial supporters."*

You must satisfy the Queen's Council Balcony following the same rules of "Acquire a Business Permit Tile."

Move the Queen to the city of your choice. The Queen must use uninterrupted roads to make the journey. Pay 2 Coins for each road traveled. The Queen may also be left in the same city; in this case, pay no Coins. Immediately place a small Merchant Miniature in the city where the Queen is located at the end of the journey.

### RULES FOR PLACING A MERCHANT

- You may only place 1 Merchant per city.
- Each time you place a Merchant in a city, whether using a Business Permit Tile or with the help of the Queen, you must return 1 Servant to the pool for each Merchant already placed by other players in that city. If the city is empty, you do not need to return anything.
- Each time you place a Merchant in a city, immediately obtain the bonus indicated by that City's token. In addition, if the city in which you place a Merchant is connected directly (via road) to another city or cities – or to a group of already connected cities – in which your Merchants are already present, immediately obtain the bonus indicated by the City's Token from all connected cities.

### GENERAL AND QUEEN'S REWARD TILES

If you are the first player to possess a Merchant in all cities of one colour or of one region, you receive the corresponding Reward Tile. In addition, you receive the topmost Queen's Reward Tile. If the Queen's Reward Tiles have all been claimed, you only receive the General Reward Tile.

**NOTE:** There are seven different Reward Tiles: gold cities, silver cities, bronze cities, iron cities, seaside cities, hillside cities, mountain cities.

## COUNCIL OF 4

In this example, the pink player was the first one that managed to position his merchants in all 4 purple cities, therefore gaining the special purple token.

## QUICK ACTIONS

Quick Actions are not obligatory and can be performed before or after the main action. The player may choose one of these four quick actions:

**Action 1:** Engage a Servant

**Action 2:** Change building permit tiles

**Action 3:** Send a Servant to elect a councilor

**Action 4:** Perform an additional main action

## QUICK ACTION 1: ENGAGE A SERVANT

*“Good help is essential for a profitable business, so remember to invest in the labor pool.”*

Pay 3 Coins and take 1 Servant from the pool. If you are unable to move back 3 spaces on the Coin Track, you cannot perform this action.

## QUICK ACTION 2: CHANGE BUILDING PERMIT TILES

*“When you don’t care for the options presented to you, change them.”*

Return 1 Servant to the pool. Then return the two faceup Business Permit Tiles in a region to the bottom of their corresponding deck and draw two new tiles from the top of the deck.

## QUICK ACTION 3: SEND A SERVANT TO ELECT A COUNCILOR

*“A discrete servant with a signed letter often leads to a change in perspective.”*

Return 1 Servant to the pool. Then take a Councilor and insert it in a Line, exactly as with the Main Action “Elect a Councilor.” You do not earn any Coins by performing this action.

## QUICK ACTION 4: PERFORM AN ADDITIONAL MAIN ACTION

*“When you have a really good idea, sometimes it behooves you to stick with it.”*

Return 3 Servants to the pool and perform two Main Actions instead of one this turn. (You may perform the same action twice.)

## COUNCIL OF 4

### THE NOBILITY TRACK

*"While a strong mercantile empire provides money and influence, nobility has privileges all its own. A noble reputation is a great boon to any merchant aspiring to great renown."*

There are two ways to move forward on this track:

As an instant bonus from an acquired Business Permit Tile OR by gaining the bonus from a City's Tokens.

When you reach a square on the Nobility Track marked with a bonus symbol, immediately receive that bonus.

You earn 2 victory points and 2 coins

You obtain the bonus of a reward token from a city in which you have a merchant. You cannot choose one of the tokens which advance you along the nobility track.

You can perform an additional main action

You earn 3 victory points and draw a politics card from the deck

You can take a face-up building permit tile without paying the cost

You earn 5 victory points and receive a servant

You receive the bonus of one of the permit tiles which you previously bought (also a face-down tile)

You obtain the bonus of two different reward tokens from two cities in which you have a merchant. You cannot choose one of the tokens which advance you along the nobility track.

You earn 8 victory points

You earn 2 victory points

You earn 3 victory points

## SETTING UP A TWO-PLAYER GAME

For a two-player game, first set up the game as normal, then randomly draw 1 Business Permit Tile per region and position 1 Merchant (of one of the colours not chosen by the players) in each city appearing on the drawn tiles. Shuffle the tiles back into their starting decks.

**NOTE:** There will be a minimum of 3 and a maximum of 9 Merchants present on the map at the beginning of the game.

## END OF THE GAME

*“Business requires speed as much as it requires planning. Spend and do what you must to move your merchants into the cities of the Empire as efficiently as you can, and reap the rich rewards from the Three Kingdoms and the Queen.”*

The first player to place their 10th Merchant immediately earn 3 Victory Points (VPs). All other players take one last turn, then the game ends. Score the following:

- Each player earns the VPs marked on their Reward Tiles.
  - The player furthest ahead on the Nobility Track earns 5 VPs, while the player in second place earns 2 VPs. If more than one player is tied for first place, they all earn 5 VPs each; no VPs are awarded for second place. If multiple players are tied for second place, they all earn 2 VPs.
  - The player with the most Business Permit Tiles receives 3 VPs.
- The player with the most VPs is the winner. In the event of a tie, the player with the most Servants and Politics cards wins.
